## Experience

---

### Prositeweb Inc.

Mar 2026 - Present

#### Full Stack Developer

- Build custom WordPress and Joomla solutions using PHP, JavaScript, Twig, and SQL.
- Delivered bilingual booking workflows with Google Calendar synchronization, Stripe authorization, and server-side validation.
- Improved WordPress-Laravel CRM integrations with dynamic field mapping and diagnostic logging; migrated PayPal checkout to server-side processing.
- Added Laravel PHPUnit feature tests with HTTP/JSON assertions and RefreshDatabase on in-memory SQLite for authentication, permissions, validation, and data persistence.

### Velte Technology Solutions

2023 - 2025

#### Senior Full Stack Developer

- Led CMS and API integrations across template-based client projects using Next.js, React, TypeScript, Tailwind CSS, and Sanity CMS.
- Implemented Stripe Checkout for one-time payments and monthly subscriptions, Resend email, Mailchimp subscriptions, and Supabase membership forms.
- Improved performance by 45%.

### Cowe Education

2021 - 2022

#### Full Stack Developer

- Improved Largest Contentful Paint by approximately 25% and helped reduce repeat support contacts by approximately 15%.

### Emma4Christ

2019 - 2021

#### Junior Full Stack Developer

- Contributed to full stack development, maintenance, and issue resolution across frontend, backend, and database work.

## Projects & Volunteer Experience

---

### IlluminEd Tutoring / Riipen Labs

Aug 2026

#### Operations & Technical Lead

- Turned website and search-visibility research into a keyword-to-page map and a phased 30- and 60-90-day delivery plan.
- Created a visual design system, reusable Canva assets, and a 2026-2027 content calendar.

### Velte Technology Solutions

Jul - Aug 2026

#### Volunteer Security & Systems Support

- Helped investigate and contain suspected Linux compromise; hardened SSH, firewall rules, and privileged access.
- Created Bash verification procedures and documented Nginx, DNS, TLS, and PM2 recovery.

## Education

---

### University of Buea

2019

#### Bachelor of Computer Engineering

Professional learning: Collaboration and Team Dynamics, IBM SkillsBuild (Aug 2026)
